

Serial No. 10/085,575

In the Specification:

Please amend paragraph 11 as follows:

[11] A plurality of force generators 104(a)...(n) (where n is any suitable number) are used to generate a force capable of affecting the sensed variables (e.g. by producing sound or vibration). Force generators 104(a)...(n) (generally 104) are typically speakers, shakers, or virtually any suitable actuators. Force generators 104 receive commands from the control unit 106 via interconnector 134 and output a force, as shown by lines 132(a)...(n) to compensate for the sensed vibration or sound produced by vibration or sound source 103-102.
